

aktywator WLKP

Every year, one can observe a **dynamic increase in the number of migrants** in Greater Poland. It is estimated that in the current year - 2020, this number will exceed the total of 40 thousand people* with valid permits for staying in Poland. To aid foreign nationals with coping with their everyday needs and problems, the following project has been launched: **"#AktywatorWLKP - support for the integration of migrants in the Wielkopolskie Voivodeship"**. We invite you to use consultancy and training services, to participate in integration events that will enable you to get to know the Polish culture and language and that may help to improve your professional potential and social skills. **All services are provided free of charge.**
